HOSIERY SALE.

The woollen men are beginning to worry over the proposed changes in the tariff. Some of them have big stocks. What shall they do? The changes will certainly touch the woollen interests, but in which direction and to what extent nobody knows. "When in doubt unload," is evidently the motto of one big maker of woollen hosiery, for he closed out his entire stock to us this week at prices very much lower than any that we could hope to secure under ordinary circumstances. Here are samples:
